

Introduction

SAAB Innovation Ltd is a Dublin based company providing health care services to state organizations & individuals since 2014.

Our team is made up of highly skilled consultants with extensive experience across the HSE, NHS, and public & private hospitals in various countries across the globe.

Dedicated to innovation and convenience, our team of doctors, business professionals, and IT experts have developed a digital health care platform addressing basic primary health care needs.

WeLoveToCare

Who is **that** for?

**Primary Health
Care Centres**

Nursing Homes

Corporate Sectors

Charities

Educational Institutions

Digital Healthcare Platform

The system is built to address the basic need of the health care. Different healthcare devices are integrated with the platform that helps to check the vital sign and make the necessary decisions.
